Randomised Patient Register - Completion Instructions

***Patient Log Number** – This is taken from the trial screening log, and consists of 3 letters to identify the centre, and 3 digits

****Neonate Initials** – Use 3 letters. If the baby has a first name and surname only, enter the initial letters with a dash between them. If the baby has not yet been named, use 'B' for 'Baby' as first letter, followed by 'B' or 'G' as a middle letter (according to gender) and the first initial letter of the mother's surname as the final letter.

*****Birth Order** – Complete for multiple births only. Enter 2 digits, for example, enter 2 / 3 for the second of triplets, or 1 / 2 for a first twin.
